

OWN YOUR EDGE SMART IDEAS FOR EDUCATION

Move Education Forward with Technology Built for Small Spaces

As education moves from books and chalkboards to tablets and interactive white boards, a strong, responsive IT network is more important than ever. However, while the opportunities for IT to transform education are great, so are the challenges.

Schools and universities are often short on space and must house IT equipment in spaces that were never intended for it, like closets, utility rooms and storage rooms. In addition, IT staff may not have dedicated expertise in the infrastructure technologies required to transform a utility room into a micro data center, nor the time it takes to check on problems and alarms in every closet.

Visit www.VertivCo.com/OwnYourEdge
for more information.

Transform your IT closet with Vertiv

Vertiv critical infrastructure and services enable virtually any space to be transformed into a micro data center that can be deployed quickly, achieve high availability and enable simple, worry-free management.

Vertiv™ VR Rack

- **More space:** An extra 2.5 inches more useable depth than similar sized racks, creates room for more equipment, such as deeper servers/switches and 60A PDUs
- **Easy access:** The Vertiv VR features easily removable panels to help you access your equipment easily, making it easier to make changes in small spaces
- **Easy adjustments:** Tool-less design features enable easy rack configuration and adjustments, equipment installation, and service

Vertiv Rack PDU

- **Get a comprehensive view:** Remotely monitor all your IT sites Vertiv Switched rack PDUs (rPDU) provide a comprehensive view of critical IT equipment power usage, both at the rack and via remote access
- **Control from away:** Remotely reboot outlets to power cycle unresponsive IT equipment or increase runtime of critical equipment upon power failure with outlet-level control
- **Insights on the go:** Gather comprehensive power data at the palm of your hand with the use of the Vertiv VLC mobile app
- **Protect your equipment:** Avoid potential circuit overloads with remote current metering and monitoring of connected loads
- **Ensure availability:** Includes the Distribution Assurance Package, a five-year protection plan and the industry's premier service capability

Liebert® GXT™4 UPS

- **Reliable power protection:** The Liebert GXT4 is a true on-line UPS that delivers continuous, high-quality AC power with no break when transferring to battery
- **Convenient support:** Includes the Vertiv Power Assurance Package, ensuring worry-free installation and ongoing maintenance
- **Flexible:** Improves availability by controlling power to multiple devices
- **Additional runtime:** Supports for up to six external battery cabinets for extended run-time

The Digitization of Education

The digitization of education represents a fundamental shift in how students learn, how teachers and students collaborate and how districts collect and use data to improve performance. But it can't happen without the right support. Support in terms of the IT infrastructure that allows your network to run uninterrupted, securely and with remote visibility. And support from a team of specialists to help you configure start-up and maintain the systems your network depends on.

Vertiv, offers a complete portfolio of solutions for small spaces, supported by more than 255 service centers, 3,000 service field engineers and 400 technical support/response people.

E-Rate: Take Advantage of this Federal Assistance Program

E-Rate (also known as the Schools and Library Program of the Universal Service Fund) is a life-saver and budget extender for many schools trying to keep up with telecom and internet technology. Check with your local Vertiv office to see if your solution qualifies for the E-rate program administered by the Universal Service Administrative Company. Through the federally funded E-rate program, schools are eligible to receive rebates up to 90% on Vertiv UPS, power distribution, and racks/enclosures.
